

# Accelerate your Success

The Go-Giver Success Accelerator combines the power of coaching with The Five Laws of Stratospheric Success from Bob Burg and John David Mann's international bestseller, The Go-Giver.

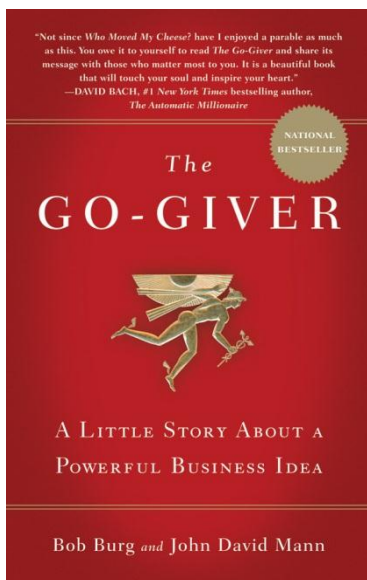

The result? An exciting breakthrough for its participants who are now equipped to more effectively build their business and create more income, while enjoying the process more than ever before.

Even if you haven't read the book, perhaps gaining Stratospheric Success by "shifting your focus from getting to giving" (giving in this case meaning constantly and consistently providing value to others) is a philosophy that resonates with you.

This six-week course teaches the entire cycle:

- ✓ **Your Success Map.** Creating your own, personal Stratospheric Success Map
- ✓ **Your Value Strategy.** Getting crystal clear on your strategy for providing value
- ✓ **Your Reach and Impact.** Leveraging that value to increase your income by increasing your reach and impact
- ✓ **Your Influence.** Building influence in your community and in your market
- ✓ **Your Unique Value.** Showcasing and communicating your unique value
- ✓ **Your Mindset.** And finally, developing a mindset that opens you up to see new possibilities and welcome the positive results of your investment

The Go-Giver Success Accelerator course is perfect whether you want to develop your Stratospheric Success Strategy working one-on-one with your coach, or in a group. It is ideal for groups consisting of sales teams, management teams, or support teams within your company or for groups of entrepreneurs, business leaders or sales professionals from diverse companies.
